

Darius, Chrysalis To Butterfly

Night-time

We're not alone if we dream together
Of the good times
We got through coz we won't surrender
Head on my shoulder glass of red wine

If we left the night behind
We have won this already

La la la li, la la la li
I watched you reach for the sky
La la la li, la la la li
Chrysalis to butterfly

Sometimes
You don't win gold, you don't win silver
At the right time
You'll find bronze makes you the winner
Tears running freely, and I dry from your cheek

If you left the night behind
You have won this already

La la la li, la la la li
I watched you reach for the sky
La la la li, la la la li
Chrysalis to butterfly
To butterfly
Kiss your lips and watch you fly
My butterfly
Chrysalis to butterfly

It's bedtime
Emotions chase us our dreams will follow
It's a good time mmmmm
For me to give you the strength I borrowed
Sigh when I hold you
Last drop of wine

If you left the night behind
I have won this already
