

# Darius, Chrysalis To Butterfly

Night-time

We're not alone if we dream together  
Of the good times  
We got through coz we won't surrender  
Head on my shoulder glass of red wine

If we left the night behind  
We have won this already

La la la li, la la la li  
I watched you reach for the sky  
La la la li, la la la li  
Chrysalis to butterfly

Sometimes  
You don't win gold, you don't win silver  
At the right time  
You'll find bronze makes you the winner  
Tears running freely, and I dry from your cheek

If you left the night behind  
You have won this already

La la la li, la la la li  
I watched you reach for the sky  
La la la li, la la la li  
Chrysalis to butterfly  
To butterfly  
Kiss your lips and watch you fly  
My butterfly  
Chrysalis to butterfly

It's bedtime  
Emotions chase us our dreams will follow  
It's a good time mmmmm  
For me to give you the strength I borrowed  
Sigh when I hold you  
Last drop of wine

If you left the night behind  
I have won this already
