

Darius, I Would Die For You

I wanna be there when you're out on the edge
And start to sweat
And lose your head
I know you've never been here before
But I wanna see more
Do you wanna see more ?
When I've been there when you're ready to pop
I never stop
Don't you stop
When you're hanging from the top of the cliff
Lose your grip
Let it slip

Let go
Come on, come on, come on
Let go
Catch yourself on
On and on and on
You're electric

I would die for you
But would you die for me
I'd do anything to make you see
Just to hit you harder
Would you die for me
Just like I'd die for you
I'd break all the rules I know for you
Just to make it better
La petite mort
La petite mort
La petite mort

Would you be here when I'm ready to break
It's worth the wait
For heavens sake
Take it 'til I catch your breath
There's nothing left
The little death
When I take you where you never would go
Curl your toes
Then explode
Would you close your eyes and give me your trust
It's only us
We're fit to bust

Let go
Come on, come on, come on
Let go
Catch yourself on
On and on and on
You're electric

I would die for you
But would you die for me
I'd do anything to make you see
Just to hit you harder
Would you die for me
Just like I'd die for you
I'd break all the rules I know for you
Just to make it better
Just to hit you harder

La petite mort
La petite mort

There's nothing left
But the little death
There's nothing left
But the little death

La petite mort
La petite mort
There's nothing left
But the little death
There's nothing left
But the little death

Yeah
Come on, come on, come on
Let go
Catch yourself on
Let go
You're electric

I would die for you
But would you die for me
I'd do anything to make you see
Just to hit you harder
Would you die for me
Just like I'd die for you
I'd break all the rules I know for you
Just to make it better
To hit you harder

La petite mort
Die for you
La petite mort
Die for me
La petite mort
La petite mort
La petite mort
