

Darius, Right Girl Wrong Time

You're next to me, you're so at ease
Never thought I felt so deep
Everything's right, everything's wrong
Nothing I do can change this song
You know what really gets me about you
Is how you kiss my eyes awake

Love how you give, love how you take
Love you for all the things you hate
When I'm with you I like who I am
I wanna be a better man
You know what really gets me about you
Is how do I face you when I leave

I gotta look but not touch
I want you so much
I feel so torn apart
I wish I could fall in to you
Make love to you
I know that I could love you all my life
But you can't be mine
Right girl wrong time

Everything's right, everything's wrong
Nothing I do can change this song
You're next to me, you're so at ease
I never thought I'd feel so awake
How do I say I can't be with you
Can't stop this roller coaster ride

I gotta look but not touch
I want you so much
I feel so torn apart
I wish I could fall in to you
Make love to you
I know that I could love you all my life
But you can't be mine
Right girl wrong time

I gotta look but not touch
I want you so much
I feel so torn apart
I wish I could fall in to you
Make love to you
I know that I could love you all my life
But you can't be mine
oh no, right girl wrong time
You can't be mine
You're my right girl at the wrong time
Right girl wrong time
Right girl wrong time
