

Darius Rucker, Sure Would Have Loved Her

It felt like forever just like this to me
Like the world was spinnin' for just her and me
I don't know why she's gone but for all that it's worth
Man, I sure woulda loved her

I sure woulda loved wakin' up to her smile
And layin' down beside her for the rest of my life
She stole my heart and turned into a ghost
But that ain't the part that hurts me the most
Man, I sure woulda loved her
Damn, wish I coulda loved her

She woulda picked up the phone and she woulda known
I was callin' to give her the world
Now she's in the wind and I still feel the thunder
Man, I sure woulda loved her

I sure woulda loved wakin' up to her smile
And layin' down beside her for the rest of my life
She stole my heart and turned into a ghost
But that ain't the part that hurts me the most
Man, I sure woulda loved her, oh
Damn, wish I coulda loved her

I don't know why or if I even care
When I close my eyes, she's still standin' there
I'd still let her sweetheart darken my door
Man, I sure woulda loved her
Damn, wish I coulda loved her
