

Darius, The Way I Do

Your kiss, your smile, your mind
You're sunlight in my eyes
I miss your breath
On my neck
When we whisper in the night

Didn't wanna want you
Didn't wanna need you so bad
Didn't wanna wake up
And find that I was falling so fast
Didn't wanna need you
Didn't wanna need anyone
Now look what you've done

Now I can't go on without you
I'm naked, I can't fake it
I'm not that strong without you
Never thought I could love you
The way I do
The way I do

Your touch, your skin
Can't believe the way you let me in
Don't rush tonight
I need you like the ocean needs the tide

Didn't wanna hold you
Didn't wanna need you so bad
Didn't wanna wake up
And find that I was falling so fast
Didn't wanna need you
Didn't wanna need anyone
Now look what you've done

Now I can't go on without you
I'm naked, I can't fake it
I'm not that strong without you
Never thought I could love you
The way I do

I always thought I would stand on my own
Climb a mountain top all alone
Relying, depending on no one
Now look what you've done

Now I can't go on without you
I'm naked, I can't fake it
Now I'm not that strong without you
Never thought I could love you
The way I do

Never thought I could love you
Never thought I could need you
Never thought I could want you
The way I do

Never thought I could love you
Never thought I could need you
Never thought I could want you
The way I do

I love you
I need you
I want you

The way I do

I love you
I need you
I want you
The way I do
