Darren Hayes, Spin

Governments elected nobody votes

Politically correct isn't that a joke?

We censor music then give children guns

On CNN

Still fightin' to death over Jerusalem

Four letter disease still makes us run

Can't comprehend that you can die from Love

Can I start things over

And change your mind

Can I sing a melody

Press rewind

Can I move your feet make your heart skip a beat

Can a simple tune flow through you?

When the music feels like this

When you lose control you gotta go with it

Ten feet high

Flyin' above the sky

Your problems don't exist

When music feels like this

No money left in Africa

Starvin' to death

In Bosnia we close our eyes and hide a nation cries

And In the West

TV Possessed and weight obsessed

The media dissects, infects

We think real life is reality TV

Can I have your attention

And Press rewind

When the DJ spins

Will it change your mind?

Can I move your feet

Make your heart skip a beat

Can a piece of me Flow through you?

When the music feels like this

When you lose control you gotta go with it

Ten feet high

Flying above the sky

Your problems don't exist

When music feels like this

When the Music feels like this

DJ take control

And Grab a hold of me

Spin that wheel

Tell me how to feel

I like the shape I'm in

When music feels like this

Bringin' the beat back

Stompin' the floor

Dancin' like a booty never bounced before

Poppin' to the back beat

Up on the one

Smack Jack Freakin' now you're overcome

When the music feels like this

When you lose control you gotta go with it

Ten feet high

Flying above the sky

Your problems don't exist

When music feels like this

When the Music feels like this

DJ take control

And Grab a hold of me

Spin that wheel

Tell me how to feel

I like the shape I'm in

When music feels like this Let the music in Let the DJ spin Let the music in Coz the music should feel like this Feel the music
