

# Darren Hayes, What You Like

I want to thank you my friend  
For making me feel worthwhile  
Sweeter than the honey of your lips  
and kindness in your smile  
hand in hand we float across the room  
Explosions deep inside  
Cheek to cheek, there's clouds under my feet  
There's only you and I

Please tell me what you like  
Does that feel nice  
Give me a sign  
If you love it I can do it again  
We've got the rest of the night to  
Get it right  
Please tell me what you like  
If that feels nice  
Give me a sign  
If you love it I can do it again  
We've got the rest of our lives to  
Get it right

Lookin' back on lonely nights  
Searching for love again  
I never knew my journey began  
And ended with you my friend  
Softer than your butterfly kisses  
And stronger than my desire  
I wanna thank you my friend  
For making me feel alive

Please tell me what you like  
Does that feel nice  
Give me a sign  
If you love it I can do it again  
We've got the rest of the night to  
Get it right  
Please tell me what you like  
If that feels nice  
Give me a sign  
If you love it I can do it again  
We've got the rest of our lives to  
Get it right

I'll never mess it up again  
Won't let it slip like grains of sand  
Through careless fingertips because  
I'm a man who understands  
Though burned by the fire  
I can learn to feel the light again and listen  
I can hear your demands  
I know I can do it give me one more chance  
Baby here I am

Please tell me what you like  
Does that feel nice  
Give me a sign  
If you love it I can do it again  
We've got the rest of the night to  
Get it right  
Please tell me what you like  
If that feels nice  
Give me a sign  
If you love it I can do it again

We've got the rest of our lives to  
Get it right

Give me a sign  
If you love it I can do it again  
We've got the rest of our lives to  
Get it right
