

Darryl Worley, Is It Just Us?

(Jerry Salley/Darryl Worley)

Today I drove through this ol' town
Took a real good look around
Saw a lot of things I'd never seen before
An older couple holding hands
Young lovers picking out wedding bands
Things I'd never noticed
Until my eyes met yours
Now I'm seeing things I've never seen
Dreaming dreams I've never dreamed
There's been such a change in me
Since I felt your touch
Everywhere I go it seems folks
Can't get close enough
Is the whole world in love
Or is it just us
When you walk with your head down
All you see's the cold hard ground
But I looked up in time to catch a glimpse of you
If everyone on God's green earth
Knew true love and what it's worth
They'd know how I'm feeling
And share my point of view 'cause
Now I'm seeing things I've never seen
Dreaming dreams I've never dreamed
There's been such a change in me
Since I felt your touch
Everywhere I go it seems folks
Can't get close enough
Is the whole world in love
Or is it just us
Everywhere I go it seems folks
Can't get close enough
Is the whole world in love
Or is it just us
Is it just us
