

# Darryl Worley, Spread A Little Love Around

(Harley Allen/John Wiggins)

Sometimes this crazy world can make us all feel bad  
I sit and watch the news and just get mad  
We need to stop and smell the roses in the ground  
So get out today  
Spread a little love around  
Talk to a neighbor  
Volunteer a favor  
Help out a stranger when his car's broke down  
Take your wife a kissin'  
When your kids talk - listen  
It makes a lovely sound  
Spread a little love around  
You know it don't take to much to make somebody's day  
A kind word or tender touch goes a long way  
We can change the whole world if we start in our hometown  
So get out today  
Spread a little love around  
Tell your mom you love her  
Bear hug your brother  
Treat your sister to a night out on the town  
Throw the ball for Rover  
Wrestle in the clover  
Put a smile on that old hound  
Spread a little love around  
Slap your sweetheart's fanny  
Tickle on old granny  
Dance with the kids and act like a clown  
A little tiny kiss and hug  
Everybody needs that stuff  
Turn a frown upside down  
Spread a little love around  
When this world gets you down  
Spread a little love around
