

Darryl Worley, When You Need My Love

(Darryl Worley/Wynn Varble)

Two in the morning telephone rings
Somehow I knew who it was
'Cause baby it's always the same old thing
When you need my love
You say it's over again and again
This time you've had enough
Girl I know you've been fighting with him
When you need my love
Oh I wish I could just say no
And get you out of my heart
It must be nice to have some place to go
When your world falls apart
He'll call tomorrow with the same ol' line
And you'll forget about us
I'll be lonely until the next time
When you need my love
Oh I wish I could just say no
And get you out of my heart
It must be nice to have some place to go
When your world falls apart
Now someday someone's gonna love me true
And baby when she does
Then I wonder what you're gonna do
When you need my love
Yeah, then I wonder what you're gonna do
When you need my love
When you need my love
When you need my love
What are you gonna do
