

# Dave Dudley, Before My Time

Yes I know that I'm about to lose you cause someone else is always on your mind  
Why must I have to give you up and give my heart up too  
For a love that came along before my time  
You say with me you think you've made a big mistake  
Well good luck I hope your ending turns out fine  
It's gonna hurt a long long time that's the price I'll pay  
For a love that came along before my time  
Well please don't blame me if I stay in love with you  
And while I'm alone if I pretend that you're still mine  
I can stand my loneliness if I know you're not blue  
With a love that came along before my time  
With a love that came along before my time
