

Dave Gahan & Soulsavers, I Can't Stay

Even as you talk
I can't understand a word
Lips they keep on moving
Telling tired tales that have all been heard

So many precious days
And all the parts you've played
You've looked so fine
All those days have gone
You tried to get along
but not all the time

I can't stay with you in here anymore
I feel like my time is running out
I know that much for sure

I can't stay another day in here with you
I feel like my time is running out
I know that much for sure

Spend your days complaining
Doubt puts only in your head
Turning every page in your book of everything
You should have done instead

So many wasted days
And all the parts you've played
It's the same old song
Well I guess it's up to you
I wonder what you'll do
Don't take, don't take too long

I can't stay with you in here anymore
I feel like my time is running out
I know that much is true

I can't stay for another day in here with you
I feel like my time is running out
I know that much is true

I can't stay with you in here anymore
I feel like my time is running out
I know that much for sure

I can't stay for another day in here with you
I feel like my time is running out
I know that much for sure

I can't stay with you in here anymore
I feel like my time is running out
I know that much is true

I can't stay for another day in here with you
I feel like my time is running out
I know that much for sure
I know that much for sure
