

# Dave Gahan, Use You

It's killing me  
To be in this room  
I've gotta get out  
I've gotta get out soon

I'm hurting you  
With everything I do  
It's too long  
Too long in this place

We're counting down  
Only seconds now  
I gotta hang on  
Hang on to you

I'm staring at  
My cuticles  
Too long  
Too long in this place

We have each other  
You are my brother  
Sitting here beside you  
I just wanna use you

We have each other  
You are my brother  
Sitting here beside you  
I just wanna use you

I'm hurting you  
With everything I do  
I've gotta get out  
I've gotta get out soon

It's killing me  
To be in this room  
I don't belong  
Belong in this place

We have each other  
You are my brother  
Sitting here beside you  
I just wanna use you
