

Dave Matthews Band, Funny the way it is

Lying in the park on a beautiful day
The sunshine in the grass
And the children play
Sirens passing fire engine red
Someone's house is burning down
On a day like this
The evening comes and we're hanging out
On a front step and a car goes by
With the windows rolled down
And that war song is playing
Why can't we be friends
Someone is screaming and crying
In the apartment upstairs
Funny the way it is
Make you think about it
Somebodies going hungry
And someone else is eating out
Funny the way it is
Not right or wrong
Somebodies heart is broken
And it becomes your favorite song
The way your mouth feels in your lover's kiss
Like a pretty bird on the breeze
Or water to a fish
The bomb blast brings the building crashing to the floor
Hear the laughter
While the children play war
Funny the way it is
Make you think about it
One kid walks ten miles to school
An others dropping out
Funny the way it is
Not right or wrong
A soldiers last breath
His babies being born
Standing on a bridge
Watch the water passing underneath
It must have been much harder
When there was no bridge just water
Now the world is small
Compared to how it use to be
With mountains and oceans
And winters and rivers and stars
Funny the way it is
Make you think about it
One kid walks ten miles to school
An others dropping out
Funny the way it is
Not right or wrong
A soldiers last breath
His babies being born
Funny the way it is
Not right or wrong
Somebodies broken heart
And it becomes your favorite song
Funny the way it is
Make you think about it
One kid walks ten miles to school
An others dropping out
Standing on a bridge
Watch the water passing underneath
It must have been much harder
When there was no bridge just water
Now the world is small

Compared to how it use to be
With mountains and oceans
And winters and rivers and stars
