David Bowie, I Took A Trip On A Gemini Spacecr

I took a trip on a gemini spacecraft And I thought about you I passed through the shadow of Jupiter And I thought about you I shot my spacegun And boy, I really felt blue

Two or three flying saucers
Parked under the stars
The winding stream
Moon shining down
On some little town
And with each beam
The same old dream

I took a trip on a gemini spacecraft And I thought about you I shot my spacegun And I thought about you I pulled down my sun visor Boy, I really felt blue

You jumped into your Gemini I jumped into mine We'll orbit the moon For just one time Tomorrow night Tomorrow night Will you hold hands With me in the moonlight

I took a trip
in a gemini spacecraft
And I thought about you
I shot my spacegun
And I thought about you
I took
I took a walk in space
Boy, I really felt blue

Well, I peeked through the crack And I looked way back The stardust trail Leading back to you What did I do What could I do Yes what did I do

Well
I thought about you
I thought about you
Took a trip
on a gemini spacecraft
Thought about you
