

David Byrne, Amnesia

Peace on earth, soon we will be
Where nothing worries us
Lazy days, cool is the breeze
Across the universe

Armies of soldiers are sleeping tonight
And moonlight is kissing their eyes

When you awake you will be free
I'll be your lullaby

Alcohol, no need to feel
Rest in these fuzzy arms
Ease on down, amnesia
Baby's on valium

Keep us from danger and safe from all harm
From the wind and the rain and the fire

When you awake you will be free
I'll be your lullaby

When you awake you will be free
And then I'll be your lullaby
