

David Cassidy, Romance (Let Your Heart Go)

Romance - she danced into my life one night.
Romance - across a crowded room she looked so right.
And suddenly the whole world just stood still

I knew I had to move or I'd blow my chance making sweet

Romance - she had the spark to set my heart on fire.
Romance - I knew she felt me burning with desire.
And as I reached to ask her for her hand
She offered me a look I'll never forget.

For tonight you're mine
darling
we can take our time.
Turn the lights down low
tonight I feel like letting go
And making sweet

Romance - then I stroke your hair
feel your face.
Romance - I feel you start to move with such grace.
I hold you in my arms
you tremble and shake

And when I kiss your mouth it thrills me to death.
For tonight you're mine
darling
we can take our time. . . .

Romance - Romance - Romance - Romance -
Ca me fait vibrer et trambler
la facon donc tu me touches.
I'll make romance
darling
I will make romance.
I want
want make romance
with you I wanna make romance.
