

# David Fonseca, Silent Void

Its me and you, and all the things we do,  
Just to go a little more, just to find a better view,  
Despite of young hearts we know how its gonna be,  
We dont get for your crops 'cause we have our own tree,  
Theres nothing wrong with your ways but we can dance to this song,  
We just wanna build and leave the bridge out of the silent void

If theres something we could do,  
To escape this silent void,  
Just a word that we could say,  
That would burn this silent door,  
No, we cant stay here no more

(Were in love.. Were in love)  
I say love. I say love

And theres no one I would rather be with,  
Nothing I would rather do,  
'Cause Ive got this dream, this heart that beats,  
Outside this silent world, and Ive got you.

And me and all that we could be,  
Out if this black hole show by the black sea,  
Were all surrounded by the old, just running their stuff,  
We dont really care for them, they dont really care for us,  
You see, I dont wanna be what they meant all of us to be,  
Shaking hands with the sales artist, the master degrees,  
With the lost kids and the loveless ones,  
Yeah, I can look like them but Ill never be one,  
And if you wanna be the bullet out of this gun,  
Then tell us please what youre made of,  
Oh tell us please what youre made of,  
Oh tell me please are you in love? Like me  
I say love

And theres no one I would rather be with,  
Nothing I would rather do,  
'Cause Ive got this dream, this heart that beats,  
Outside this silent world, and Ive got you.  
Were falling in the lights of others,  
I hold her willed and we keep spinning,  
Were falling in the lights of others,  
I guess our mind is made up,  
Were gonna quit the state of,  
We can leave this silence  
We can leave this silent void  
We can leave this silent void  
We can leave this void  
We can leave this silent void

I say love. I say love

And theres no one I would rather be with,  
Nothing I would rather do,  
Cause Ive got this dream, this heart that beats,  
Outside this silent world, and Ive got you.  
Outside this silent world, a heart beats,  
Outside this silent world, well, Ive got you,  
Outside this silent world, my heart beats,  
Outside this silent world, well, Ive got you.
