

David Gates, Save This Dance For Me

I'll never forget
That look in your eyes
The first time I held you
And we realized
Something so special
Was growing inside
Feelings so deep
Not easy to hide
We talked of forever
And how we would wait
But the band started playing
Now am I to late

Won't you save this dance for me
And I will lead for you
God has gave me one last chance
Before my life is through
And in your arms when the music stops
Is where I want to be
So tell him no
And save this dance for me

No ones been able
To hurt me before
And I'll never love
Like this anymore
If there's no one else
Like you in this world
So much a woman
But I call you girl
I don't mean to doubt you
But still I could lose
I can't live without you
So please will you choose

Won't you save this dance for me
And I will lead for you
God has gave me one last chance
Before my life is through
And in your arms when the music stops
Is where I want to be
So please be brave
And save this dance for me

And don't give up
And save this dance for me
