

# David Gray, Hold On

Hold on hold on to me hold on hold on to me  
Sometimes there's no easy way  
Got to cause somebody pain  
Watching you you hit so hard on yourself  
Cos you need someone to blame

Oh now what will you do  
Oh now what will you do  
Can't help the way you're feeling  
Don't want to leave him so alone  
Lisa cries her red hair streaming down feels like her heart is made of stone
