

David Gray, Hold On

Hold on hold on to me hold on hold on to me
Sometimes there's no easy way
Got to cause somebody pain
Watching you you hit so hard on yourself
Cos you need someone to blame

Oh now what will you do
Oh now what will you do
Can't help the way you're feeling
Don't want to leave him so alone
Lisa cries her red hair streaming down feels like her heart is made of stone
