

# David Gray, Long Distance Call

If I lean my weight on it  
If I fix my heart to the line  
Might find a way from it  
To some easy time

My skins all white with it  
I'm up so high when I fall  
I fall so far from it  
Ain't nowhere at all

Early morning sun  
Shine it and I'm gone  
To plane out on the lake  
Hey hey yeah yeah  
To glide out on the wing  
Turn around and sing  
The fear now taking hold  
I'll bring you love but it's all been sold

My heads all wired with it  
My tongue gets tied when I speak  
The space inside roaring  
When that signal break

Early morning sun  
Shine it and I'm gone  
To plane out on the lake  
Hey hey yeah yeah  
To glide out on the wing  
Turn around and see  
The fire now taking hold  
I'll bring you love but it's all been sold
