

# David Gray, Tell Me Something (Hospital Food)

## HOSPITAL FOOD

Just a little something for the pain  
Hospital food getting you down?  
Honey now I'm not one to complain  
But this hangin' around  
Is wearing me out

So patch me up boys take me home  
Are you not hearing a word I say?  
She sounds so different on the phone  
I just sink like a stone  
Back to the bay

Tell me something  
Tell me something  
I don't already know  
Tell me something  
Tell me something I don't know

Don't seem to have that much to show  
For all the hard work, the sweat and toil  
You say well that's right', and you should know  
You've been there before  
You've basked in the glow  
You've stood in the roar  
You've tasted the snow

Tell me something  
Tell me something  
I don't already know  
Tell me something  
Tell me something  
I don't already

Seeing it all so beautiful  
The way it oughta be  
Seeing it all so beautiful  
And turning away  
Turning away  
Turning away

Tell me something  
Tell me something  
I don't already know  
Tell me something  
Tell me something  
I don't already know
