

David Houston, Fallen Star

A star fell from heaven right into my arms the brightest star I know I've never seen
Then I found out that it was only you with all your charms
Who came into my life to fill a dream
A fallen star that's what you are the twinkle in your eye came from the sky
You must have strayed from the Milky Way a fallen star that's what you are
[steel]
The heavens must be lonely now that you are mine
I'm sure they'll miss a star as bright as you
The stars will send their blessings and brighter they will shine
When they see the dream that's coming true
A fallen star that's what you are...
