

# David Tavaré, Call Me Baby (If You Don't Know My Name)

Baby hear me callin' baby come over here and love me  
Hold your lovin' body close to mine  
Crazy you're drivin' me crazy maybe you don't mean to  
But you never know what's goin' on in a woman's mind  
I know you've been hurt before  
You don't know what you're lookin' for and you're lonely  
If you'll only let me stay I will kiss the tears away and love you forever  
Baby I'm on my knees now baby I know that you're a lady  
But I wanna watch the sun come up with you  
Baby hear me callin' baby come over here and love me  
Hold your lovin' body close to mine  
I know that you're a lady but I wanna watch the sun come up with you  
I know that you're a lady but sometimes a lady needs a little lovin' to
