

# Dawn Landes, Drive

You've had a hard time  
Livin' with a hard heart  
You hardly feel a thing  
And you don't know where to start  
It's all you want, all you want, and you run,  
but it won't change a thing  
So it won't be long, won't be long, won't be long, long  
Before you can make it sing  
It won't go away  
It's comin' after you all day  
You're surrounded  
When you look at me that way  
I don't ever think to say  
But I just found it  
Drive  
C'mon, c'mon and drive  
C'mon, c'mon and drive  
Maybe it's bad luck  
Leaving while I'm not for loan  
When you leave everything  
It's so hard to go home  
It won't go away  
It's comin' after you all day  
You're surrounded  
When you look at me that way  
I don't ever think to say  
But I just found it  
I can't walk away  
Drive  
C'mon, c'mon and drive  
C'mon, c'mon and drive  
I can't walk away  
I can't walk away  
Drive  
C'mon, c'mon and drive  
C'mon, c'mon and drive  
Just sail away, sail away, sail away, sail away  
Sail away, sail away, sail away, sail away  
Just sail away, sail away, sail away, sail away  
Sail away, sail away, sail away, sail away
