

De Heideroosjes, Act Right Now

Too many things I like to say
Too many things are wrong today
Too many wars I wanna stop
Too many kids will be fucked up

Does it make a difference?
Does it make any fuckin' sense?
Does it stop this world from dying?
The calls of mother nature we're denying

It's time to act right now!

How many warnings do we need?
How many more kids have to bleed?
How many more diseases can we face?
How many days left for the human race?

I'm just a singer of a rock 'n roll band
And I know one day my life will end
But does that mean I have to care less
I'm just trying to make something out of this mess
