

# De Heideroosjes, Can't Stand Your Face

Best bother me another day  
Can't stand your face today  
I don't hate you, you're quite ok  
I can't stand your face today  
It's not your fault, it is with me  
Can't stand your face today  
If you don't go, I won't stay  
'cause I can't stand your face today

Most days a year, it's not an issue  
Come on, complain, before I miss you  
But today I just want, to be left alone  
Solve your own shit, you are on your own

Best bother me another day  
Can't stand your face today  
I don't hate you, you're quite ok  
I can't stand your face today  
Solve your problems without me  
Can't stand your face today  
Not even if you were JFK  
Can't stand your face today
