

# De Heideroosjes, Nothing For Free

Kill your mommy, fuck your dog  
I don't care, take a frog  
God is dead and who are you?  
You tell lies, you aren't true  
Watch TV and fall asleep  
Bono is Hitler, Chirac a creep  
Life is short so live it fast  
Try to be good, better, best

Everything for ourselfish and nothing for free  
That's the way that it is, it always will be!

Walking left or take the right  
Both ways awake a fight  
Go ahead or come back  
Don't leave the followed track  
No end, no light of day  
Always someone you betray  
Shake a hand or make a fist  
Your message will be missed

Give a smile or always cry  
You are wrong untill you die  
Hate the black, kills the whites  
Illusion of the equal rights  
Women are hookers, men are gay  
Everybody is wrong, except me  
I'm your hero, i'm your God  
Shut up sucker, smoke your pot

Kill the world and kill yourself  
Don't rely on no one else  
Hit a child, molest a kid  
No matter what, make it fit  
You're a bitch and I'm a creep  
Together we are falling deep  
I hate your face and you hate mine  
Our lives ain't worth a dime
