

Dead Milkmen, Big Scary Place

All the stores have
Anything you want
In this big scary place
In this big scary place

Everyone forms lines
Where you stand and wait
In this big scary place
In this big scary place

The days inch along
And you lose track of time
In this big scary place
Always a lot to do
But of course it's easier in your mind
In this big scary place
Big scary place

There's too much space
There's not enough space
In this big scary place
You can go outside
If you really want
In this big scary place
In this big scary place

But when you see
The eye in the sky
Make sure you hide
In this big scary place
The days inch along
And you lose track of time
In this big scary place
Always a lot to do
But it's easier in your mind
In this big scary place

Everywhere you go
Everything you do
Everything you know
Everything you knew
Is swallowed alive
Devoured by time
Right from your mind
In this big scary place

Move down the street
Only shadows form
In this big scary place
Lock the door tight
From the outside light
In this big scary place
