

Deadman, The Water Is Washing Over Me

i see violence coming around the bend
violence is coming around the bend
i see violence burning bright cuts through the murky night
and the water is washing over me
and the water is washing over me
and the water is washing over me
and the water is washing over me
i walk through the shadow of death
i walk through the shadow of death
when a burning light cuts through the murky night
and the water is washing over me
and the water is washing over me
and the water is washing over me
and the water is washing over me
the soldier pierced jesus in his side
the soldier pierced jesus in his side
pierced him with his sword out holy water poured
and the water is washing over me
and the water is washing over me
and the water is washing over me
and the water is washing over me
keep it up keep it up
keep it up keep it up
keep it up keep it up
keep it up keep it up
