

# Deadstar Assembly, A Deep Breath

Never thought we'd end up this way  
Never thought everything would change  
Its so hard to leave your side or to stay  
I never believed in Fate  
But I guess thats all we really need  
Are we meant to be?  
Or are we gonna fade away  
Going to fade away  
It's fallin apart thats how it feels  
This pain in our heart is all too real  
But maybe someday there'll be something left  
I'll take a deep breath  
I remember the vision so clear  
Now your down on the ground in tears  
The blood on my arms is the same as you crying  
I saw you walking to me  
Surrounded by the beauty  
Now everything that we are is dying  
Now it's dying  
Can't we live with the difference  
Of what we thought our life should be  
Can't we live with what we have  
And let the love just set us free  
From the pain...
