

Dean Strickland, I'll Get Out Of This Town

I'm gonna make my dream come true
I know I can with the right attitude
I'm getting a little knocked around now
But one day I'll get out
I'll get out
I'll get out of this town

I'll go where bigger and better things happen
Maybe Hollywood, New York and London
With my belief though I don't have money
I can be a true rags to riches success story

I'm gonna make my dream come true
I know I can with the right attitude
I'm getting a little knocked around now
But one day I'll get out
I'll get out
I'll get out of this town

Isn't that what the world's always looking for?
It's gonna be tough but I will make my own door
And break it down
It will take me some time
I'm hoping to make it
I will never stop, never stop, never stop
I'll never stop trying

I'm gonna make my dream come true
I know I can with the right attitude
I'm getting a little knocked around now
But one day I'll get out
I'll get out
I'll get out of this town

I don't mean to always look so sad
With hard work things won't stay so bad
I'll remember who's in the Heavenly sky
With faith in Him everything's gonna be alright, alright, all right

I'm gonna make my dream come true
I know I can with the right attitude
I'm getting a little knocked around now
But one day I'll get out
I'll get out
I'll get out of this town
I'll get out of this town
I'll get out of this town
I'll get out
I'll get out
I'll get out of this town
