

Dear Ephesus, Big Brother

The sky is falling.
Meet the UFO's.
There's bombs and then there's wars.
The people are faceless.
They're leaving this town.
The skay is falling.
They're scared of the monsters.
These beasts have two heads.
You can see them on the T.V. Headline at 10.
In herds just like cattle.
How's it gonna end.
The sky is falling.
They always know.
Big brother is watching and I can't sleep.
Where do we go.
They always know.
The aliens come and gather specimens.
Where do we go.
