

# Death, Baptized In Blood

Under command a new-born child  
Submerged in blood, The dead they smile  
Growing possessed, Burning inside  
A bloody feast for us tonight

The way of death  
Is growing hear just take my hand  
Skies grow black  
Unholy corpses upon their land

The dead they gather around  
Praising the child they found  
Possessed, The child shall kill  
The future is now revealed

Baptized in blood  
Destined to burn  
Baptized in blood  
Reborn they'll learn

Gather around, Watch and see  
A new creation of misery  
Taking the place of the elderly dead  
Forbidden ways now in his head

The way of death  
Is growing hear just take my hand  
Skies grow black  
Unholy corpses upon their land

The dead they gather around  
Praising the child they found  
Possessed, The child shall kill  
The future is now revealed

Baptized in blood  
Destined to burn  
Baptized in blood  
Reborn they'll learn

Baptized in blood  
Destined to burn  
Baptized in blood  
Reborn they'll learn
