

Death, Choke On It

Freedom is just a breath away
Will you live to see the day
As the heat intensifies
You start to choke, Your insides fry

Seizure now sets in
Torture will begin
Twisted bodies lie
Waiting now to die

Choke on it - As your tongue goes down
Choke on it - Death is all around

Screaming fills your frenzied mind
No way out no more time
Example made from those to see
Your freedom turned to misery

World is all around
Of what they have found
Lesson to be learn
You will not return

Choke on it - As your tongue goes down
Choke on it - Death is all around
