

Deathbot, Last Rides

So I lost my mind on these empty last rides
So long, long ago
Been holding my breath for what I left
Don't you you know

Been spinning my wheels for these things that kill
Love love's got me down oh no
Been breaking my back for where you're at
So tell me maybe tell me
Tell me you need us so
Oh tell me we're made of gold
Oh tell me you love us so

So I lost my mind on these empty late nights
So long long ago
I've been on the run for the shit that I've done
Don't you you know

Been spinning my wheels on these things that kill
Love love's got me down oh no
Been breaking my back for where you're at
Oh tell me maybe tell me
Tell me you need us so
Oh tell me we're made of gold
Oh tell me you love us so

So I lost my mind on these empty last rides
So long long ago
Been holding my breath for what I've left
Don't you you know
So I lost my mind on these empty late nights
So long long ago
I've been on the run for the shit that I've done
Don't you you know
