

# Deathbot, Patiently

Oh take a look at what they've done to me  
Oh they broke my heart and tied my hands  
Now I'm slipping through  
All these miles onto nowhere  
Take my guns and my love  
Don't they understand

And these crowds  
They don't comfort me  
Just wear my bones  
And steal my love  
But I'm waiting here so patiently  
I'm waiting here so patiently

It's one last night  
In these bright white lights  
Aint no spotlight in this heat  
Making us bleed  
But I've been crashing cars  
Oh like movies stars  
Now I'm sleep walking through these streets

And these crowds  
They don't comfort me  
Just wear my bones  
And steal my love  
But I'm waiting here so patiently  
I'm waiting here so patiently

I'm still here on  
They wont let me up  
I'm just a firecracker  
I'm blowing off  
Cause I'm burning now  
In a blazing flight of glory  
Tell my love, tell my luck  
Don't you let me down

And these crowds  
They don't comfort me  
Just wear my bones  
And steal my love  
But I'm waiting here so patiently  
I'm waiting here so patiently
