

Deathbot, Walk No More

Don't lift a finger
Don't say a word
Don't come up for air
Now that everything has turned
Cause they've taken to the streets
and they'll take to our heads
Burn this green grass
leave you lying here dead

So my feet they're all black
and my eyes turned to grey
but I'll dance on you fucks
for my every last day
You'll never take me alive
You'll never break me away
Cause don't you know I'll win
I've got a set of wings
and I'll walk no more

Now the further we go
Is the longer we'll stay
The further you rock
Is the longer I'll pay
Now time and again
I'm out on these ends
Just tell me I'm lovely
Please tell me again

So my feet they're all black
and my eyes turned to grey
but I'll dance on you fucks
for my every last day
You'll never take me alive
You'll never break me away
Cause don't you know I'll win
I've got a set of wings
and I'll walk no more

Don't lift your eyes I won't touch
Spread your gold wings it won't hurt you so much
Don't lift your eyes I won't touch

Don't lift a finger
Don't say a word
Don't come up for air
Everything has turned

So my feet they're all black
and my eyes turned to grey
but I'll dance on you fucks
for my every last day
You'll never take me alive
You'll never break me away
Cause don't you know I'll win
I've got a set of wings
and I'll walk no more
