

# Debelah Morgan, Alright

I used to feel so sad  
Sad and lonely too  
Cause I never has someone  
Who loves me like you do  
I don't worry anymore  
With Him by my side  
Ever since the day we met  
His love has changed my life  
Open up and let Him  
He will be your one true friend  
He will make everything alright

Chorus

Everything will be alright  
Everything will be alright  
With Christ in your life  
He will make everything alright  
Everything will be alright  
Everything will be alright  
With Christ in your life  
He will make everything alright

Verse 2

He will love you too  
If you let Him in (if you let Him in)  
It doesn't matter who you are  
He don't care where you been  
He just wants to be your friend  
His touch will ease your pain  
Once you let him in  
You will never be the same  
Open up and let Him  
He will be your one true friend  
He will make everything alright

(Chorus)

Bridge

Alright, Everything will be alright  
Alright, Everything will be alright  
Alright, Everything will be alright  
Alright, Everything will be alright  
(Chorus)
