

Debelah Morgan, Stay

(Vassal Benford, Debelah Morgan, Giloh Morgan)

Hey, baby, you know I just had to tell you
How I've been feeling
All I need is just one night
And when I'm through with you
You wanna stay?
I can't help, I want you
Everything about you is so right
You're body babe, so sexy babe
I really wish you'd spend the night
I'm the kind of woman who loves to take her time
Love the man and please him all night
I don't invite just anyone into my life
But with you I can't ignore how I feel inside
Won't you stay tonight
Baby stay tonight
Let me love your body down
All the way down
Please stay tonight
I can't help when I see you
I wanna make love to you
It's the way babe you move babe
It's the little things that you do
I'm the kind of woman who loves to take her time
Love the man and please him all night
I don't invite just anyone into my life
But with you I can't ignore how I feel inside
Won't you stay tonight
Baby stay tonight
Let me love your body down
All the way down
Please stay tonight
I know you're feeling the heat deep inside
My body's yearning and I just can't hide
So come over here and let's make love
We can make love all night
Boy don't you know that the mood is right
Move close to me and hold me tight
Never let me go, never let me go, never let me go
Baby until you love me down
Won't you stay...
