

Debelah Morgan, Take The Rain Away

(Chorus)

Baby take the rain away
make it come again some other day
Let's pretend everything's OK
Baby take the rain away

(Verse 1)

I'm tired of waiting for things to change
I've exhausted all the patience I have
So baby when you come home tonight
Let's pretend everything's all right
Baby come and take the rain away

Chorus

(Verse 2)

Just for tonight let's leave our problems behind
Let's lose ourselves in passion for one night
So baby when you come home tonight
Let's pretend everything's all right
Baby come and take the rain away

Chorus

(Bridge)

Kiss the rain drops on my face
Only you can take me from this place
On a cloud let's ride away
We can disagree another day

Chorus
