

# Debelah Morgan, Yesterday

(Vassal Benford, Debelah Morgan)

Verse 1

Who's gonna love me baby  
Who's gonna hold me now  
Kiss me tenderly  
And rub my body down  
Make love by candlelight  
Keep me warm at night  
I can't believe all you left me in memories  
As I lay here baby  
Wishing you're here with me  
And you were touching me  
Making my body scream  
How could you leave me baby  
With all these memories  
Tell me what the hell am I supposed to be feeling now

Bridge

Baby you're so fine  
You're always on my mind  
I think about you all the time  
Don't you know I love you so  
I never wanna let you go baby  
'cause I still remember yesterday

Chorus

I still remember yesterday  
You took your love and went away  
And now your love is just a memory  
I still remember yesterday

Verse 2

I rehearse in my mind  
More than a thousand times  
This broken melody  
That reminds me  
I cannot tell a lie  
I kept you satisfied  
But no one could ever come close to you with me

Bridge

Baby you're so fine  
You're always on my mind  
I think about you all the time  
Don't you know I love you so  
I never wanna let you go baby  
'coz I still remember yesterday

Chorus

I still remember yesterday  
You took your love and went away  
And now your love is just a memory  
I still remember yesterday

Oh...

You're so fine  
You're always on my mind  
I think about you all the time  
You're so fine...
