

Deborah Allen, What's The Matter With Me

WHAT'S THE MATTER WITH ME

(Deborah Allen - Rafe VanHoy - Don Cook)

You only get around to me when someone else has said goodbye
Somehow you only want the ones who noly going to make you cry
It seems no matter what you do you never get their loving affection
It should be obvious to you you're looking in the wrong direction

What's the matter with me
What do I have to do to make you see
Just how good it could be
If it's really love that you need
What's the matter with me

When you're lying in my arms waiting for your heart to feel
How can you be so close to me and not know the way I feel
You say it makes you feel so good to know you can cry on my shoulder
I must really be a fool to let it happen over and over
