

# Deborah Gibson, Wishing You Were Here

I'm writing letters and your candle is burning  
Things could be better, can't handle this yearning  
Can't stop my head from spinning  
Wishing you were here

Look at your photo but it still can't hold me  
I just recall the things you never ever told me  
Like you're the one and I am  
Wishing you were here

Chorus:  
Wish you were here  
To see the moon in the skies  
Oh here, to see the light in your eyes  
Looking at the stars and  
Wishing you were here

The clock is ticking  
But the time moves slowly  
The weeks go quickly  
So you just won't know me  
I'm writing love songs and I'm wishing

Chorus:  
Wish you were here  
To see the moon in the skies  
Oh here, to see the light in your eyes  
Looking at the stars and  
Wishing you were here  
To put a smile on my face  
Here, to get caught in my warm embrace  
Looking at the stars and  
Wishing you were here

Bridge:  
To calm the restless nights  
To kiss my fears away  
Here to make this wrong seem right  
To start our lives today

Chorus:  
Wish you were here  
To see the moon in the skies  
Oh here, to see the light in your eyes  
Looking at the stars and  
Wishing you were here  
To put a smile on my face  
Here, to get caught in my warm embrace  
Looking at the stars and  
Wishing you were here

Wish you were here  
To see the moon in the skies  
Oh here, to see the light in your eyes  
Looking at the stars and  
Wishing you were here  
To put a smile on my face  
Here, to get caught in my warm embrace  
Looking at the stars and  
Wishing you were here

Wish you were here  
To see the moon in the skies  
Oh here, to see the light in your eyes

Looking at the stars and  
Wishing you were here  
To put a smile on my face  
Here, to get caught in my warm embrace  
Looking at the stars and  
Wishing you were here
