

# Dechant Anne E, Break My Heart

Lover walk an extra mile for me  
Lover stand out in the rain  
Throw a rock up at my bedroom window  
To reconcile is worth the shame  
Break my heart. Break it down again  
Break my heart and let me build it up again  
Break my heart  
Don't tell me that I'm just a friend  
Break my heart and I will build it up again  
Call long distance when you're far away  
Call collect if you don't have the change  
Come here any time day or night  
At my door and I will always let you in  
Break my heart  
Break it down again  
Break my heart  
And let me build it up again  
Break my heart  
Don't tell me that I'm just a friend  
Break my heart  
And I will build it up again  
Don't tell me that I am blind  
Oh baby, read my mind  
Don't tell me I can't be your love  
It's all and everything I need  
Break my heart. Break it down again  
Break my heart and let me build it up again  
Break my heart  
Don't tell me that I'm just a friend  
Break my heart and I will build it up again  
Break my heart. Break it down again  
Break my heart and let me build it up again  
Break my heart  
Don't tell me that I'm just a friend  
Break my heart and I will build it up again  
Lover walk an extra mile for me
