

Decibully, Beyond Hope

if you knew me
you'd be overwhelmed right now
did you hear that there's a tender shark in town?
you only half baked the cake you sent me
i'm with heartbreaker and the family
we all drank
the doctor's driving us home
we're left overs
but still a weeks worth of good meals
if you find us tell the ones that can still hear
we're snow children
and one bartender
rye drank most december
the air in the air gets thick
we go home
but we're all beyond hope
the songs that you sing are slow and sad
and unthought out
and performed badly
i'm afraid that this style has been out for awhile
but fashions turn 'round
we know what we're doing
with softer hits and a little more time
if the sounds still come
we'll keep on playing
the songs that we sing are slow and sad
and unthought out
and performed badly
but we're all beyond hope
