

# Decoded Feedback, Bio-Vital

When you die, your life flashes  
When life turns into death, its explosive  
When love becomes hate  
When things turn into opposite  
There are sparks of light  
Magical, and electrifying

Everyone senses something  
Some energy  
Some spirit  
Some sort of illumination  
but I see it  
I see it  
I've seen bodies  
Shining like stars  
I've seen the light in your eyes
