

Decyfer Down, Never Lost

Where could I go to escape from you?
Break from you?
If I move beyond eternity,
You would be...

(Chorus:)
I thought everytime, into another place,
Where I always find, your single saving grace,
Whether I have climbed, or fell into the blue,
I'm never lost from you,
Never lost from you

I could ask the darkness to envelope me,
Cover me,
But even the night, is like a light to you,
Shining through

(Chorus)

(Chorus)

Never Lost From You
